# Summary of the Meeting of the Technical Advisory Committee on Science and Knowledge - June 9, 2020

---

## Virtual Meeting

## Meeting Objectives

The three main objectives of the June 9 meeting were to: 1) Determine 2 to 3 priorities and deliverables for the committee to focus on over the next year; 2) Identify a research contract that could advance a Committee priority; and 3) Lay out the next steps, topics and timelines for collaborating with the Indigenous Advisory Committee.

These discussions were preceded by an update by the Agency and followed by a brief discussion of follow-up actions to be taken.

## Agenda Item: Brief Remarks from the Agency

- An Agency official provided an update to the Committee on three topics: strategic assessment, scoping, and follow-up, which were discussed at the Committee's March 3-4, 2020 meeting.
- The Agency's ex-officio member provided an update on the Regulations Respecting Excluded Physical Activities (Newfoundland and Labrador Offshore Exploratory Wells).
